General Anesthetic Services, Inc.

Vaporizer Service and Calibration

OVERVIEW

General Anesthetics Services' vaporizer service exchange program is performed at our state of the art ISO 13485:2016 service center.

- Little to no operating room downtime - elimination of valuable anesthetic wastage.
- Patient safety.
- Maintaining vaporizer compliance ensures vaporizer clinical accuracy.
- Employee health and safety.

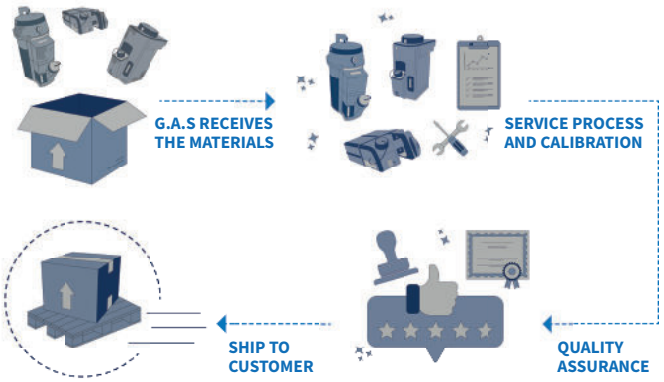

SERVICE OPTIONS & RECOMMENDATIONS

Vaporizer Service Exchange:

- Service exchange is “like for like”. Customer will receive a fully serviced, calibrated, and warrantied vaporizer of the same model, agent, filler, and mount of the vaporizer in need of service.
- Customer will keep vaporizer received from G.A.S.
- Customer will return their vaporizer to G.A.S. using our prepaid return label.
- The replacement equipment must be of the same model and type and in comparable condition. Any damage must be noted for internal review.

Vaporizer Service Turnaround:

- Send your vaporizer to the G.A.S. service center for full service and calibration. You will receive the same vaporizer back.
- Ideal for facilities that need to maintain the same serial number.

PATIENT & OPERATIVE SAFETY

- Vaporizer service maintains device accuracy and best practices.
- Vaporizer service maintains proper function, PREVENTS EXPOSURE from leaks and complies with various agency requirements.

QUALITY

- Upholding the highest quality standards.
- ISO 13485 certification specifc to medical device.
